ZEITGEIST

INDIA'S LARGEST PLATFORM FOR AI & ANALYTICS LEADERS, PROFESSIONALS & ASPIRANTS

India has close to 1400+ GCCs with an average of 2 new GCCs being opened up per week employing close to 1.3M professionals (25% of overall technology workforce) with a revenue of USD 36 Bn. By 2025, India is projected to have 2000 GCCs employing 2M highly skilled professionals and generating revenues of USD 60Bn.

Global Capability Centers (GCCs) are at a critical inflection point. As multinational corporations continue to move to an AI-first paradigm, they are looking at their GCCs to provide AI & Analytics prowess to drive this transformation. AI & Analytics has taken a robust foothold in the GCCs, with their in-house capabilities powering intelligent data-driven decisions for their parent organizations. The next generation of the GCCs will be expected to provide autonomous decision support and an AI-augmented human intelligence. GCC leaders will need to harness the burgeoning power of AI to drive corporate decisions, automate repetitive, low-value tasks through robotization, reinvent business models for the continued success of their business in the new world and trigger insights, intelligence & recommendations hubs for amplified decision making.

GCC X...Summit will help harness the collective power of GCCs & AI & Analytics leaders wherein they will share & discuss the topical and contemporary trends and developments in GCCs. The focus of this densely curated, contextually led event is on covering end to end coverage spectrum in:

- **GCC 3.0 : Evolution & The Journey Ahead**
- **Novel AI & Analytics and exponential technologies capabilities in GCCs**
- **Topical Talent & Career Pathway Strategies in GCCs**
- **The New Next in Transformation & Innovation for GCCs**
- **New Workforce & Location Strategies in GCCs**
- **AI & Analytics Center of Excellence in GCCs**
- **AI–first enterprise construct enabled by GCCs**
- **Playbooks for GCC's transformation through AI, Analytics & Data Engineering**

Summit Outcomes

GCC X... Summit will compel participants to develop the understanding about the new possibilities in GCCs in conjunction with looking at developing action plans for leveraging new AI & Analytics capabilities, solutions, CoE approaches, talent strategies, governance mechanisms within GCCs and business spheres for inculcating Transformation, Innovation and Disruption dynamics within their GCCs. The participants will also be showcased with topical scenarios, best practices and trends in GCCs.

GCC X...Summit will bring together top of line 30+ stellar GCCs, AI & Analytics leaders in pacy yet multifaceted enthralling sessions and will be attended by 5000+ participants from GCCs, enterprises, consulting firms, startups, consulting, technology, pure play analytics firms, BPM firms and academia in a pulsating 4 hours format on immersive virtual platform.

Attendees Profile

GCC leaders, AI & Analytics leaders, practice heads, CDOs, CTOs, Data engineering heads, CXOs, decision makers, senior leaders, AI & Analytics, Cloud, Data Engineering professionals, mavens & technology aficionados from GCCs, Indian & Global enterprises , BPM & Consulting players, pure play analytics firms, startups, Technology Cloud providers & academic institutions, universities, EdTech players, students, research fellows.

Expected attendees: 5000+
